Take Our Daughters to Work Day in Worcester promises to be wonderful this year in a partnership with Girl Scouts, Women’s Initiative and support from Big Brothers Big Sisters. We are extending this invitation to working women across Central Massachusetts to join us for this late afternoon event - to listen to the girls’ experiences on the job with their mentors for the day, and to share your employment stories, challenges and accomplishments with the girls and with each other.

Dr. Gail Carberry, President of Quinsigamond Community College will make a presentation to us all about the importance of continued education in achieving the girls’ career goals.

*Light refreshments will be served.*
